My Story - A Little About My Journey, Who I Am,

What I Stand For and My Wish for You.

We are all on a journey.

My life's journey isn't and hasn't been perfect and I sure wasn't born with a silver or gold spoon in my mouth.

I have been at the rock bottom and I have been at the top.

I climbed and fought my way to the top of my game with decades of hard work, smart work, successes, failures, mistakes, ups and downs, battles (both internal and external), betrayals, pain, suffering, sacrifices, tears, sleepless nights, yelling and screaming - you name it - just like you! Even felt sometimes like it would literally kill me or ruin my health. I know many of you may have felt like it too.

I learned a lot. I grew a lot. I changed a lot. And I mastered a lot.

Now I want to pass that wisdom, experience, mastery and expertise on to you.

Why? Well - for lots of reasons - but first and foremost because it is my life's mission, passion and purpose to help you get where you want to go personally, financially and otherwise **with as little pain, suffering, setbacks and mistakes as possible**. Personally I had and saw way too much pain, suffering, setbacks and mistakes. I don't want you to have to go through all that.

On my journey I have seen and been around incredible and perhaps even insane examples of wealth and prosperity - and I have also seen and been around incredible and definitely unspeakable, heart breaking and gut wrenching examples of and aspects of poverty. I've travelled the world to and have seen some of the best and worst places you can go to on this planet.

And I consider myself to also be a "Bridge Builder". Perhaps you have heard of or read the great inspirational poem by that title. You can read it at the final pages of this bio.

My Driving Force In Life.

My driving force I have dedicated my life to is to help people achieve, obtain and sustain **Personal Success, Financial Success, Financial Freedom** and **Emotional Freedom** and to ultimately have and live consistently THEIR version of their **DREAM LIFE**.

My Philosophy On Life and Being Human.

We are ALL brothers and sisters and ALL travelers and participants on this long, amazing journey we call LIFE - through our mother earth and a through a universe that is vast - that is ALWAYS changing - and that never sits still. When I think about it all it truly is amazing and leaves me speechless and spellbound. It is a journey filled with Opportunity and Danger. Love and Hate. Wealth and Poverty. Happiness and Struggle. Pleasure and Pain. Peace and War. Health and Disease. All of it is around us every day. Sometimes we feel Pain. Sometimes we are Happy. Sometimes we have Success. Sometimes we have Failure. It's all part of the journey.

Each one of us has the free will to choose our direction. And each of us is responsible for all of our own actions and all of our own outcomes. Our own effort and actions are the engines that drive our development and our life.

Your Mind Determines Your Dream Life.

The laws of nature and the laws of the earth as well as the universe are rational, presiding over it all, and can be understood and mastered in time. All actions have reactions and each of us is responsible for all that we do. Being born human is a fantastic opportunity because we have the enormous creative power of our **intention** and **free will**.

We are our own masters. We create our own fate - our own heaven and our own hell. We create (or destroy) by the use of our intention and free will. Our human mind is always creating. Our mental environment is our own responsibility, whether you call it behavior, psychology or anything else. Our mind is the key to it all. Like it or not, ready or not, our mind is always creating and affecting our inner and outer world and ultimately ourselves, affecting our present and our future. If we use our mind wisely, with love, respect, encouragement and

compassion for other living beings, its tremendous power can bring more joy, success, freedom, peace, happiness and prosperity into our lives than we can possibly use up. To do this **we need to understand and master how our mind works and how our intentions, free will and actions affect our internal and external worlds.**

By practicing and mastering all of this, we can design our lives so that we cause no harm to ourselves or our world, thus creating inner and outer world harmony. This of course, as humans, is a MONUMENTAL TASK. BILLIONS of people and ZILLIONS of events and things all interacting at the same time with different values, beliefs, rules, goals, desires, will and intentions? Seems like a task that is just too big for us all to deal with.

BUT by paying attention to, staying mindful of, dedicating ourselves to and bravely examining and practicing the art and science of being human we can grow in wisdom, happiness and peace. In short we can achieve our Ultimate Freedom and if you will your own NIRVANA. Your own DREAM LIFE.

MAY A GREAT LIFE - YOUR DREAM LIFE - AND GREAT KARMA

BE WITH YOU ALWAYS.

Our end game and end goal is to help those who come into our sphere of influence achieve and sustain their DREAM LIFE done with the pursuit of:

SOME CLOSING THOUGHTS.

BUILDING BRIDGES TO CREATE and SHARE SUCCESS, FINANCIAL PROSPERITY and A DREAMLIFE.

Build a Bridge You ask?

Yes in fact - build MANY bridges!

We live in a world with so much danger, pitfalls, uncertainty, selfishness, greed and evil in it. People need help - a safe passage and route - more than ever before in human history.

You can make a difference by helping create and build a SAFE PATH for others to travel on as they go on their journey so they can avoid as much as possible the pain, suffering, loss and uncertainty that you or others may have had on your journey. This will protect and accelerate the journey to success for:

- 1) You
- 2) Your Family
- 3) Your Friends
- 4) Your Colleagues
- 5) Others
- 6) The World

You just never know whose life you may change or what a great difference you could make in the world.

I mentioned to you earlier that I am a "Bridge Builder" myself and I promised I would share with you the poem "Bridge Builder". So here it is below. I hope you enjoy it, that it inspires you and moves you and that perhaps you too will become a "Bridge Builder" yourself, if you are not already.

The poem says it all:

The Bridge Builder

By Will Allen Dromgoole - 1860 – 1934

An old man going a lone highway,
Came, at the evening cold and gray,
To a chasm vast and deep and wide.
Through which was flowing a sullen tide

The old man crossed in the twilight dim,
The sullen stream had no fear for him;
But he turned when safe on the other side
And built a bridge to span the tide.

“Old man,” said a fellow pilgrim near,
“You are wasting your strength with building here;
Your journey will end with the ending day,
You never again will pass this way;
You’ve crossed the chasm, deep and wide,
Why build this bridge at evening tide?”

The builder lifted his old gray head;
“Good friend, in the path I have come,” he said,
“There followed after me today
A youth whose feet must pass this way.

This chasm that has been as naught to me
To that fair-haired youth may a pitfall be;
He, too, must cross in the twilight dim;

Good friend...

I am building this bridge **for him!**”

**“WHAT BRIDGES ARE
YOU BUILDING?”**
